HACCP (Hazard Analysis & Critical Control Points) is

a globally recognized management system in which food safety is addressed through the analysis and control of biological, chemical and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

It took a lot of time, training and hard work from the resort team to get these strict ways of working in place.

It was very important for us to invest in **HACCP** so our guests can safely enjoy our food and beverages.
