HACCP (Hazard Analysis & Critical Control Points) is a globally recognized management system in which food safety is addressed through the analysis and control of biological, chemical and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

It took a lot of time, training and hard work from the resort team to get these strict ways of working in place.

It was very important for us to invest in HACCP so our guests can safely enjoy our food and beverages.

HACCP (Hazard Analysis Critical Control Points) adalah sistem manajemen yang diakui secara global di mana keamanan pangan ditujukan melalui analisis dan kontrol biologi, kimia dan bahaya fisik dari produksi bahan baku, pengadaan dan penanganan, untuk manufaktur, distribusi dan konsumsi produk jadi.

Butuh banyak waktu, pelatihan dan kerja keras dari tim resort untuk mendapatkan cara-cara yang aman bekerja di tempat.

*Itu sangat penting bagi kita untuk berinvestasi dalam **HACCP** sehingga para tamu dapat dengan aman menikmati makanan dan minuman kami.*
